

Service Indicators - you may have noticed that your account has a negative service indicator (hold) regarding transcripts, and don't know how this might affect preregistration. **Every Brite student** has a negative service indicator which says "Student has Brite career," followed by either "use OFB transcript" or "BR/TCU OFF and OFB transcripts." This indicator tells the Registrar's Office what kind of paper to use when printing official transcripts, and **will not affect your ability to register for classes.**

Financial holds **do** affect your ability to register.
